“China Airlines is a fast growing and dynamic carrier with a clear vision of their future development. Under its fleet renewal and expansion plan, soon the company will introduce to its fleet new Airbus A350s and Boeing 737-800s – all of which will require extra crew. Moreover, the carrier seeks for additional PICs and FOs for its current fleet of Airbus A330, A340 as well as Boeing 777 and 747 aircraft,” comments Skaiste Knyzaite, the CEO of AviationCV.com. “We are very glad to support China Airlines with attracting new Captains and First Officers to its team. We have already planned, amongst other, several road-shows in Russia and Latin America during which we will present the carrier’s career opportunities and share what it is like to work and live in a vibrant city of Taipei.”

All the pilots selected and screened by AviationCV.com as well as approved by the Taiwanese carrier will be offered a 3-years long contract with an opportunity to prolong it upon successful cooperation. In order to provide the pilots with favourable conditions of visiting home more often, they will be offered up to 8 consecutive days off per month, depending on the agreement.
