Emirates has announced that it will deploy its latest flagship A380 aircraft featuring new premium economy seats and luxurious enhancements across all cabins to London Heathrow. Starting from 4 January, passengers flying between Dubai and London Heathrow can experience Emirates' latest A380. Operating as EK003/004, the aircraft is scheduled to depart Dubai daily at 14:30hrs, arriving at 18:20hrs in London Heathrow. The return flight departs London at 20:20hrs and arrives in Dubai the next day at 07:20hrs. All timings local.

Emirates last week unveiled its latest A380 with brand new premium economy seats that offer a generous seat pitch of up to 40 inches, in addition to new economy class seats similar to those installed on its latest Boeing 777-300ER gamechanger aircraft, enhancements to its popular A380 First and Business Class including its signature Shower Spa and Onboard Lounge, and refreshed colours and fittings across all cabins.

Until more Premium Economy seats enter its inventory, the airline intends to offer these as spot upgrades for its valued customers on a discretionary basis. All other signature Emirates A380 First, Business and Economy cabins are available for reservation on emirates.com or via travel agents.

The airline has safely and gradually restored its network over the past months, bringing back signature experiences onboard and on the ground with comprehensive measures in place for the health and safety of its customers and employees.

Emirates currently serves London Heathrow with 5 daily flights of which 4 are operated with an A380. The airline also operates 10 flights a week to Manchester, and daily flights to both Birmingham and Glasgow.

Emirates serves 99 cities across the world, offering travellers convenient access to Dubai and onwards to popular destinations in Africa, the Americas, Asia, Europe, and the Middle East.
