INCIDENT: JETSTAR A320 ENROUTE ON DEC. 11, 2015, HYDRAULIC FAILURE

News / Airlines

A Jetstar Airbus A320-200, registration VH-VFV performing flight JQ-127 from Adelaide, SA (Australia) to Denpasar Bali (Indonesia), was enroute at FL340 about 540nm northnorthwest of Adelaide,SA over central Australia when the crew decided to turn back to Adelaide due to the failure of one of the hydraulic systems. The aircraft descended to FL250 for the flight back and landed safely back in Adelaide about 2:40 hours after departure.

The airline confirmed an issue with one of the three hydraulic systems on board, the aircraft could have continued to Bali, it was however decided to return to Adelaide due to the better engineeering support available. The flight was cancelled, the passengers were rebooked onto other flights.
