PAKISTAN'S AIRBLUE EYES A RETURN TO EUROPE

News / Airlines

AirBlue (PA, Karachi Int'l) has announced plans to **resume longhaul flights to Europe** following a near two-year long hiatus. In an announcement made via social media, the Pakistani carrier said Manchester Int'l would be among its first destinations.

AirBlue dropped flights to Birmingham Int'l and Manchester Int'l in late 2013/early 2014 claiming at the time that it did not have the capacity to sustain its expansion into both Saudi Arabia and the United Kingdom.

The carrier maintains a single widebody aircraft in its fleet - A330-200 UR-WRQ (cn 296) on wet-lease from Ukraine's Wind Rose Aviation (7W, Kiev Borispol).
