TIANJIN AIRLINES TAKES CHINA'S FIRST E195S

News / Airlines

Tianjin Airlines has taken delivery of two Embraer 195s, the first of the type in China.

The carrier took delivery of the aircraft, registered B-3100 and B-3108 on 24 December. The regional jets, equipped with General Electric CF34-10E powerplants, are configured with 122 seats in an all-economy layout.

The airline plans to deploy the regional jets on the Tianjin-Qingdao-Wenzhou and Tianjin-Changsha routes.
