JET AIRWAYS TO OPERATE BOEING 777 AIRCRAFT ON MUMBAI-SINGAPORE ROUTE

News / Airlines, Airports / Routes

Jet Airways, India's premier international airline, will deploy the Boeing 777-300 ER, the largest aircraft in its fleet, on the Mumbai-Singapore route resulting in a 50% capacity increase on this key sector.

With effect from August 6, 2016, the Jet Airways flight 9W 12 from Mumbai to Singapore and the return flight 9W 10 from Singapore to Mumbai will operate on a Boeing 777-300 ER aircraft. Similarly, flight 9W 09 from Mumbai to Singapore and the return flight 9W 11 from Singapore to Mumbai will operate on a Boeing 777-300 ER aircraft with effect from August 7, 2016.

The Jet Airways Boeing 777-300 ER aircraft as a three class configuration, providing guests the option of eight First Class suites, 30 Premiere flat beds and 308 ergonomically designed Economy seats on board the wide body aircraft.

Jet Airways' capacity increase between Mumbai and Singapore is in response to growing demand on this sector, particularly from business and corporate travellers.

With the introduction of the B777-300ER, Jet Airways now offers a consistent and seamless B777-300ER product right through from Singapore to London and return via its hub in Mumbai, thus offering its flagship First Class Suites end to end. Flight timings from Singapore to London via Mumbai are scheduled to ensure that business travellers and corporate fliers depart Singapore in the evening to conveniently arrive in London early morning. On the return, Jet Airways guests have the option to arrive Singapore either in the morning or evening and also have the option to stop over in Mumbai or Delhi.

Gaurang Shetty, Whole-time Director, Jet Airways, said: “It is our constant endeavor to create a consistent, unmatched travel experience for our guests. Deploying the 777-300ER aircraft will give our guests on the Mumbai-Singapore route the opportunity to sample our signature First Class hospitality for the first time, while delivering a superior inflight experience in all classes. Moreover, it will allow us to enhance our capacity significantly, addressing the demand for more seats on the route, at a time when trade and investment between India and Singapore is witnessing a healthy growth.”

Boost in cargo capacity

The B777 aircraft with a significantly larger cargo capacity which offers better flexibility in transporting various types of consignments such as perishables, pharmaceuticals, machinery and industrial goods between Mumbai and Singapore. Additionally, heavy shipments from Singapore to London Heathrow, Paris, Dubai and Singapore can now be seamlessly transported via Mumbai.

Superior inflight experience

The Jet Airways Boeing 777 offers guests a luxurious inflight experience. Each of the eight First Class suites on the Boeing 777 aircraft features an 81 inch long bed, a 23 inch flat screen monitor and carefully designed storage areas that include a personal hanging wardrobe, dual credenza and under ottoman stowage. Each of these private suites is designed to allow dining for two with a VIP/Business Jet style table, multiple LED lighting options, variable lumbar support and an eight point massage system. For those who wish to catch up with work, the First Class suites provide power source and telephone connectivity.

Guests in the Premiere cabins can travel in comfort in a cabin that creates a virtual living room, a space to work, rest or entertain. The seat opens out to a 180 degree flat bed with lumbar support and massage system.

Jet Airways economy seats on board the Boeing 777 have a seat pitch of 32 inches, and are ergonomically designed to create the most comfortable economy seating in the sky.

The Jet Airways Boeing 777 includes a selection of fine food and beverages on board. It will offer Champagne and wines from around the world including Bollinger La Grande Annee, served in Rona stemless glassware. The menu choices are extensive and plated on hand crafted William Edwards porcelain dinnerware. Jet Airways has also introduced the very delectable, signature Satay dish as an appetizer on its Singapore to Mumbai flights in Premiere class.

With the airline’s state-of-the-art inflight Panasonic eX2 entertainment system, guests have the choice of over 1,500 hours of Hollywood and Bollywood movies, regional films, television and short programming, audio CDs covering a wide spectrum of music genres.

The Jet Airways Mumbai-Singapore service also offers convenient connections to Australia and
