CIRRUS VISION JET ELEVATES AND STREAMLINES BUSINESS OPERATION

News / Business aviation, Manufacturer

Cirrus Vision Jet redefined personal and business aviation industry and captivated the market, setting a best-selling record for seven consecutive years. The Vision Jet created a new legacy that redefines personal aviation, private travel and jet ownership. Cirrus delivers Vision Jets to charter operators, business owners and entrepreneurs -- who discovered the value of jet travel while valuing dedicated ownership support, cost efficiency and regional capability. Approaching its 10-year anniversary, Vision Jet celebrates 700 deliveries and an expanded ownership support ecosystem. Through Cirrus, jet ownership is streamlined for business, Part 135, or personal flight operations.

Zean Nielsen, Chief Executive Officer of Cirrus commented: “We oftentimes hear Vision Jet operators express their genuine revelation and excitement for the opportunities that have presented themselves with jet ownership. Whether it’s closing a deal in-person, managing or expanding to multiple business locations, or spending more time with family and friends, the Vision Jet has reshaped the way people travel in order to accomplish more.”

Vision Jet is regionally capable and cost-effective. Through Cirrus, all owners are also backed by its global Authorized Network of Service and Flight Training Centers. On a Vision Jet, it takes approximately 3 hours to fly from Denver, CO to Las Vegas, NV, versus an 8-hour drive. The time savings are undeniable, and with a Cirrus, the cost efficiency is as well, due to the modern, fuel-efficient design, lower insurance premiums, and predictable operating costs through programs like

JetStream.

Cirrus recently announced its commitment to Vision Jet recurrent flight training by adding a simulator at its Scottsdale (SDL) location. The Vision Jet simulator will accommodate 45 pilots per month and serve the greater West Coast territory. The investment showcases Cirrus' dedication to flight training and safety.

Vision Jet owners are also supported through a comprehensive ownership structure. Jetstream eliminates the stress of jet management by streamlining coverage for maintenance, training, subscriptions, and normal wear-and-tear into one cost-predictable package.

Increase connectivity with Cirrus IQ PRO, a premium subscription plan that's included with Jetstream and available through the Cirrus IQ mobile app, enabling owners to access greater insight into their aircraft. Now they can receive real-time status updates, manage inspections and maintenance, review flight summaries, view approach scores, and export flight data. Cirrus IQ PRO consolidates third-party applications to simplify aircraft management. Should owners require assistance in remote areas, Cirrus has established a mobile unit service in Arizona, Illinois, Florida, Maryland, Tennessee and Texas.
