GULFSTREAM DELIVERS 10TH G700 AIRCRAFT TO QATAR EXECUTIVE

News / Business aviation

Gulfstream Aerospace Corp. has delivered the 10th G700 aircraft to Qatar Executive, the private jet charter division of Qatar Airways Group. This delivery completes the order announced in October 2019 and marks the 25th Gulfstream aircraft delivered to Qatar Executive since the partnership commenced in 2015. For Qatar Executive, the delivery of this G700 is a key milestone in its continuous growth strategy, reinforcing its position as a leader in the global business aviation market while continuing to expand its capabilities and enhance the travel experience for its passengers.

Mark Burns, president, Gulfstream commented: “Qatar Executive has been a valued and respected partner for more than a decade. We were honored to have them as our international partner for the G700 launch and first delivery and appreciate their continued trust as we deliver yet another high-quality aircraft to their growing world-class fleet.”

The G700 features the most spacious cabin in the industry and the Gulfstream Cabin Experience with 100% fresh air, natural light from 20 Gulfstream Panoramic Oval Windows and the industry’s lowest cabin altitude at the highest elevations. With a maximum operating speed of Mach 0.935

and a high-speed cruise of Mach 0.90, the ultralong-range G700 has more than 90 city-pair speed records to date.

The performance capabilities of the G700 can be attributed to the combination of Rolls-Royce Pearl 700 engines, Gulfstream-designed advanced aerodynamic wing and high-speed winglet introduced on the aircraft. The G700 is also outfitted with the award-winning Predictive Landing Performance System and dual head-up display featuring Gulfstream's new Combined Vision System that unites Enhanced Flight Vision System and Synthetic Vision System in a single image, increasing pilot situational awareness and opening access to more airports.
