JETBOOK IS LAUNCHING NEW AVIATION-THEMED DIARY

News / Business aviation

JetBook confirmed today launching JetBook 2021 Diary and Planner. It is the World's First International Aviation-Themed Diary and Planner which will be available in Three Different Versions! JetBook 2021 Diary and Planner is high-quality diary and planner packed with gorgeous aviation images, information, and personality to help to get organized and well-balanced business and private life in effective way. It brings together all dates and information about key aviation exhibitions and conferences as well as international yacht shows which becomes often attended by aviation professionals, their clients and business partners.

The JetBook 2021 Diary and Planner isn't just well-structured, so you can organize your whole life efficiently. It's also an adventurous celebration of the beautiful machines in the aviation industry," said Antónia Luka?ínová, Jet Book's author. JetBook Diary is designed for international travels providing information about time zones, measurements and conversions, and IATA codes of the most flown international airports. It is packed with personality when it helps not only with daily planning and organization but it features also mood-boosting jokes, motivational and inspirational quotes, and more to keep things fun.
