UBER CHOPPER PROVIDES HELICOPTER IN BALI

News / Business aviation

Online application based transportation, Uber Taxi, is set to land its new line of service, Uber Chopper, in Bali. The transportation is cooperation between Uber Taxi and Air Bali, providing service of transportation of 5,000 feet above the sea level which planned to be launched on Friday, Feb. 19.

Uber Taxi spokesman for Indonesia, Karun Arya, said that Uber aims to help tourism in Bali. "We plan to bring a whole new experience on viewing Bali from the sky," he said February 18, 2016.

Uber Chopper helicopter will start cruising above Bali's sky on Friday, only from 12:00 to 14:00. Uber ensures that Uber Chopper customers will be protected by insurance.
