AIR TAXI SERVICE PROVIDER WIJET COMMITS TO UPGRADING BUSINESS JET FLEET WITH HONDAJET

News / Business aviation, Events / Festivals, Manufacturer

Honda Aircraft Company and Wijet, a provider of air taxi service currently operating 15 business jets throughout Europe, signed a Memorandum of Understanding (MoU) today for multiple HondaJets to upgrade the Wijet fleet. Honda Aircraft made the announcement during the Singapore Airshow being held at Changi Exhibition Centre, where the HondaJet is making its first-ever appearance.

Wijet is the first French air taxi company and offers travel to about 1,200 airports throughout Europe and North Africa. Wijet's mission is to provide their customers with the most modern and advanced aircraft with high performance, efficiency and reliability.

The MoU follows Honda Aircraft's recent announcements of being the most-delivered jet in its category for the first half of 2017 and several speed records in its class. Wijet is expected to take delivery of its first HondaJet during the first quarter of 2018 with more to follow.

"I am delighted that Wijet has chosen the HondaJet to provide their customers with the exceptional experience of the most advanced light jet on the market," said Honda Aircraft President and CEO Michimasa Fujino. "I am confident the HondaJet will meet and exceed their expectations with its quietest, most spacious and most comfortable cabin in its class combined with unrivaled speed, efficiency, and amenities like a fully-private lavatory and WiFi connectivity."

"There is no comparison to the HondaJet, in its category," said Patrick Hersent, CEO of Wijet. "For our customers we offer the best-of-the-best in terms of products and experience while providing our partners with a safe and superior product at an affordable rate. The HondaJet does all of these things."

The HondaJet is currently certified in Europe (European Aviation Safety Agency), the United States (Federal Aviation Administration), Mexico(Directorate General of Civil Aviation), Canada (Transport Canada) and Brazil (Brazilian National Civil Aviation Agency).

efficient, competitive, Wijet is the new generation of private aviation.

About HondaJet

The HondaJet is the fastest, highest-flying, quietest, and most fuel-efficient jet in its class. The HondaJet incorporates many technological innovations in aviation design, including the unique Over-The-Wing Engine Mount (OTWEM) configuration that dramatically improves performance and fuel efficiency by reducing aerodynamic drag. The OTWEM design also reduces cabin noise, minimizes ground-detected noise, and allows for the roomiest cabin and largest baggage capacity in its class and a fully serviceable private aft lavatory. The HondaJet is equipped with the most sophisticated glass flight deck available in any light business jet, a Honda-customized Garmin® G3000. The HondaJet is Honda's first commercial aircraft and lives up to the company's reputation for superior performance, efficiency, quality and value.
