BERLIN PREPARES FOR SUPERSONIC DISPLAY FEATURING WORLD'S FASTEST AIRCRAFT

News / Events / Festivals

Thousands of visitors will arrive in Berlin for the city's 2016 airshow which will feature some of the most advanced military and civilian aircraft currently available.

More than 200 aircraft will be on display, many of them performing test flights above the crowds, including Second World War-era Messerschmitt Me 109 fighter and an Me 262, the first production jet aircraft.

Vintage aircraft fans will also see a DC-3 'candy bomber' which took part in the Berlin Airlift and helped save the city from starvation.

Airbus will be displaying its A400M heavy-lift aircraft tat the Berlin Air Show, pictured today practicing its routine at Schoenefeld.
Massive transport aircraft can carry up to 25 tonnes of cargo or more than 100 paratoopers and operate out of rough landing strips

Airbus will also be demonstrating their new A350-XWB, which is a twin-engined, wide-bodied long-haul aircraft

Already in Berlin is the Boeing 747-400 jumbo jet dubbed 'Ed Force One' flown by Iron Maiden's Bruce Dickenson. The band are playing tonight before departing the airport tomorrow - during the

middle of the air show.

Dickenson will take off with his band and 12 tonnes of equipment tomorrow at around 2pm.

According to the organisers, the first two days of the airshow are for industry insiders while Friday and Saturday are open to the public.

Volker Thum of the German Aerospace Industries Association said: 'We are eagerly anticipating a highly innovative and forward-looking ILA 2016 that will enable all visitors to experience the fascination of aviation and space flight at first hand.

As well as manned aircraft, there will be a number of unmanned drones, such as this Heron TP created by IAI and Airbus Defence

The German Bundesweher helicopters, pictured, will be on display during the four-day air show starting tomorrow morning in Berlin

'Once again the programme of flying displays is an integral part of the ILA, and as usual there will be plenty to see this year, with 200 aircraft on the ground and in the air. We are expecting more than 1,000 exhibitors from 37 countries.

'The ILA is already established as one of the world's largest and most important trade shows for the aerospace industry. It is synonymous with innovation, and it also takes an in-depth look at a number of issues of vital importance for the future success of our industry in the face of worldwide competition, such as sustainability, digitalisation, Industry 4.0 and 3D printing.'

Airbus will be promoting its new twin-engined, long-haul, wide-bodied A350 XWB at the show. The aircraft contains a greater proportion of carbon fibre components than any other passenger jet.

The A320neo will also be seen, which Airbus claim is the quietest jet in the Lufthansa fleet.

Several display teams will also take part including the Royal Navy's Black Cats helicopter display team.

Among the jets taking part in the displays later this week will be this pair of German Eurofighter attack jets

The airshow is only open to trade delegates for the first two days, but members of the public can visit on Friday and Saturday
