CEPA EXPO 2016-JAA WORKSHOPS AND PRESENTATIONS LOOK TO THE FUTURE OF BUSINESS AVIATION

News / Business aviation, Events / Festivals

The organisers of CEPA EXPO have created a program of forward looking and visionary presentations for the 2016 event. Featuring a series of educational workshops organised by the JAA Training Organisation, CEPA EXPO 2016 promises to deliver a highly educational series of workshop presentations enabling delegates to be fully informed on the latest regulations and the implications for the future. The workshops will review recent developments in EASA regulations, certification and documents required for seamless operation throughout Europe.

Another aspect of CEPA EXPO 2016 is that this year the program has been extended to three days to include a brand-new career day. The purpose of the career day is to bring together delegates and young professionals and students from the most prestigious universities of Central and Eastern Europe (CEE). This combination of future focused presentations ensures that CEPA EXPO 2016 will deliver a comprehensive review of current and future trends in business aviation in Central and Eastern Europe.

Taking place at one of Europe's most impressive venues, Prague Castle, CEPA EXPO has the official patronage of the Czech Ministries of Transport, Foreign Affairs, Industry and Trade. The event is also supported by the City of Prague, the Czech Chamber of Commerce and the Confederation of Industry of the Czech Republic.

Roger Whyte, Chairman of CEPA EXPO advises "*We have worked hard this year to deliver a program of presentations that reflect the major issues that are impacting on business aviation in Europe. Our aim is to be as forward looking as possible and therefore we have incorporated events such as the workshops that will equip delegates with the very latest information on current and future changes in regulation. Our brand new Careers Day will help introduce and inspire a new generation to the career potential that business aviation offers. If you would like to take a peek into the future CEPA EXPO is the place to be.*"

CEPA EXPO 2016 takes place from the 18th to 20th October 2016 in Prague, the Czech Republic.
