News / Finance

AviaAM Leasing, global aviation holding company engaged in commercial aircraft acquisition, leasing, and sales, has announced the sale of two Airbus A321-211 aircraft with lease attached. Both aircraft are being operated by Montreal based Canadian low-cost leisure airline Air Transat. The aircraft was delivered to the new lessor on the 14th of August, 2018.

“We were delighted to add Air Transat into our customer portfolio when we leased the first two A321 aircraft to the operator earlier this year. The results of this cooperation gave our company a strong believe in possibility to have more mutually beneficial deals in the future’’, says Mantas Meizneris, VP Sales at AviaAM Leasing.
