AERODYNAMICS ACADEMY ACQUIRES 15 TECNAM P2008JC TRAINERS

News / Maintenance / Trainings, Manufacturer

Tecnam and Aerodynamics Academy announced the purchase of fifteen Tecnam P2008JC MkII by the flight school. Headquartered in Malaga, Spain, Aerodynamics Academy is a recognised Approved Training Organisation and Flight Training Organisation and is one of the fastest growing flight schools in Europe with 200 students in 2024. The acquisition of the Tecnam P2008 JC aircraft enhances Aerodynamics Academy's training capabilities and provides students with access to modern, efficient and reliable aircraft that meet industry standards. This move reinforces Aerodynamic Academy 's position as a leading aviation training institution in Europe, providing students with world-class resources for their pilot training journey.

Walter Da Costa, Tecnam Chief Sales Officer commented: "We are incredibly excited to partner with Aerodinamics and contribute to their growth and fleet innovation."

Juan Manuel Martín. CEO of Aerodynamics Academy said:"Aerodynamics Academy acquires 15 new Tecnam P2008 JC models to expand a fleet of over 30 aircraft and 5 high-generation simulators, solidifying its position as one of Europe's most promising pilot training schools."

Aerodynamics Academy, with over 26 years of experience in one of Southern Europe's most beautiful regions – Malaga – and a climate that allows flying all year round, has facilities where
