EURAVIA ANNOUNCES NEW ROLLS-ROYCE 250 ENGINE SUPPORT CAPABILITY

News / Business aviation, Maintenance / Trainings

Euravia Engineering & Supply Co. Ltd. ("Euravia"), a Magellan Aerospace company will showcase an expanded product capability at Helitech 2016. Euravia, Europe's leading PT6 engine shop, is now providing total engine support for the Rolls-Royce 250 (RR250) engine. Euravia operates from purpose-built facilities in Kelbrook, in the north west of England, and its new expansion facility, Euravia North America, located in Phoenix, Arizona.

Euravia is an established maintenance, repair and overhaul (MRO) centre of excellence for European PT6 operators and is excited to expand its product offering to include the RR250 engine. Operators around the world can expect the same excellence in engine support, component repair and overhaul, and 24/7 Mobile Repair Team support for the RR250 engine that they have come to rely on for PT6 engines.

Euravia's General Manager, R&O, Mr. Steve Doughty said, "Euravia is committed in offering total customer support combined with exceptionally competitive prices to enhance operational efficiency."
