EXECUJET BECOMES APPROVED MAINTENANCE ORGANISATION FOR BERMUDA AND ARUBA IN CHINA

News / Business aviation, Maintenance / Trainings

ExecuJet Haite is celebrating receiving approval from the Bermuda Civil Aviation Authority (BCAA) and the Aruba Department of Civil Aviation (ADCA) to provide full maintenance services at its MRO facility at Tianjin Binhai Airport, China.

ExecuJet Haite is a full-service, state-of-the-art business jet maintenance facility that, along with the recent BCAA and ADCA approvals, boasts CAAC, EASA, FAA, Cayman, Hong Kong and Macau approvals to perform various levels of line and base maintenance.

Paul Desgrosseilliers, General Manager, ExecuJet Haite, says: “We are proud to be one of the safest and most trustworthy business aviation operators in the industry and we are delighted to be recognised by a growing number of the world’s leading aviation bodies. We have an unwavering commitment to delivering a quality service that runs through the core of our global network and we look forward to providing maintenance on more of the world’s aircraft in 2019 and beyond.”
