SABENA TECHNICS STRENGTHENS LEADERSHIP IN AIRCRAFT ENGINE AND APU BORESCOPE ACTIVITIES

News / Maintenance / Trainings

Sabena technics announced a groundbreaking agreement with Regio Lease for the transfer of its borescope inspection activities including tools and resources to Sabena technics, marking a pivotal step in positioning Sabena technics as a European leader in Aircraft Engine and Auxiliary Power Unit (APU) Borescope activities.

This strategic move significantly enhances Sabena technics capabilities in borescope inspections, enabling the company to offer an even broader and more diversified range of certified services including boro blending support. Customers can now benefit from improved service offerings that provide greater value and address evolving industry demands.

Regio Lease will collaborate with Sabena technics in Blagnac to answer its own Customers requests, ensuring the highest standards of service and safety for its customers supporting the growth of this critical aviation service sector.

With a highly reinforced experienced and flexible team associated to « state of the art » tools and
