TEXTRON AVIATION UNVEILS EXCLUSIVE EVOX UPGRADES FOR CESSNA CITATION & BEECHCRAFT KING AIR CUSTOMERS

News / Business aviation, Maintenance / Trainings

Textron Aviation launched “EvoX,” specialized aftermarket upgrade packages designed for Cessna Citation and Beechcraft King Air customers who are seeking the latest aircraft upgrades and modifications to maximize the value of their aircraft. EvoX allows customers to bundle state-of-the-art avionics, cutting-edge connectivity solutions, exclusive luxurious interior refurbishments and sleek exterior upgrades into one easy to schedule and complete comprehensive modification package.

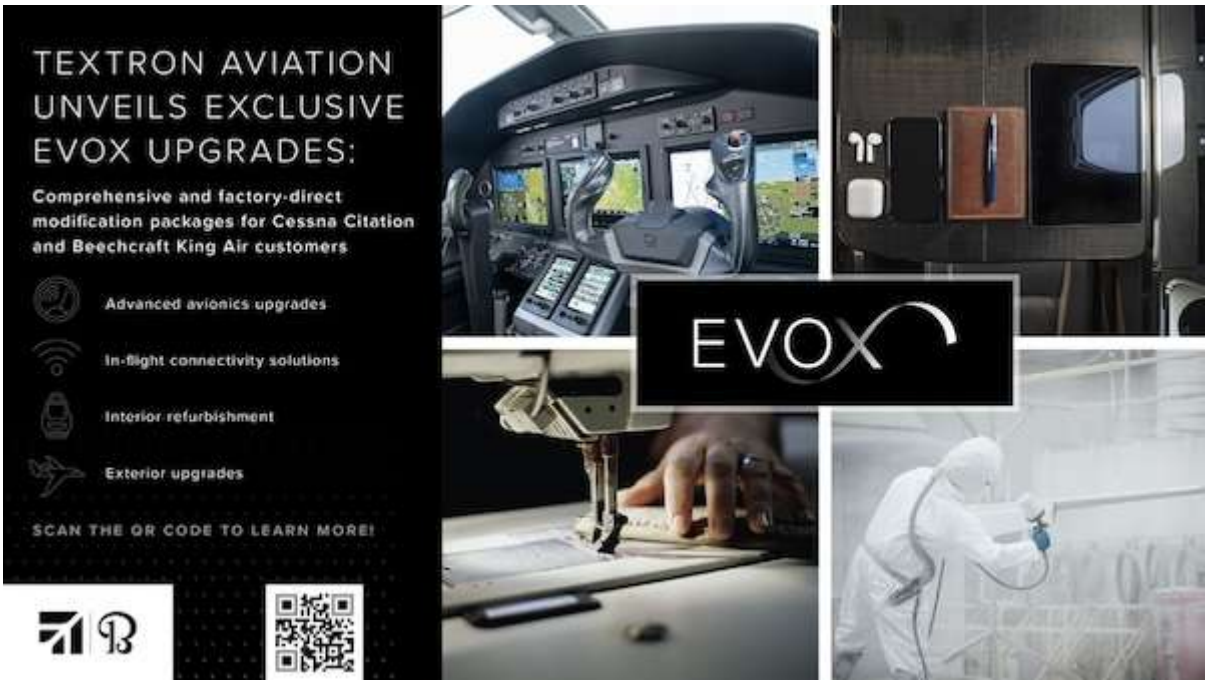

Brian Rohloff, senior vice president, Customer Support commented: “Textron Aviation’s new EvoX packages offer Cessna and Beechcraft customers complete aircraft revitalization options to maximize the value of their aircraft. We’ve meticulously curated the latest avionics, seamless connectivity options and exclusive bespoke interior and exterior designs to create an experience that feels like flying in an entirely new aircraft. With the launch of EvoX, we’re demonstrating our commitment to designing and delivering the best aviation experience for our customers.”

Key features of the EvoX upgrade packages include:

- **Advanced avionics upgrades:** incorporating the latest in navigation and communication technology to deliver superior in-flight performance and reduce pilot workload.
