VOLOCOPTER AND EURO FLIGHT TEST SIGN MOU TO LAUNCH EVTOL TRAINING COURSES

News / Maintenance / Trainings

Volocopter signed a MOU with Euro Flight Test to provide the world with the first eVTOL training courses. This groundbreaking collaboration aims to set new standards in pilot training and familiarization with eVTOL aircraft. The partnership between Volocopter and EFT will focus on developing comprehensive training modules that address various aspects of eVTOL operations. The courses will include:

- Ground-based eVTOL Familiarization: Providing essential knowledge about eVTOL technology, systems, and operations.
- Remote Controlled Drone Training: Equipping pilots with the skills needed to operate drones remotely.
-

Flight Test for Pilots: Offering hands-on flight test experience to ensure pilots are proficient in eVTOL operations.

- eVTOL Training Modules: Comprehensive training programs designed to prepare pilots for the unique challenges of flying eVTOL aircraft.

David Bausek, CTO at Volocopter commented: "We are thrilled to partner with Euro Flight Test to launch these pioneering eVTOL training courses. As the urban air mobility industry continues to grow, it is crucial to have well-trained pilots who are familiar with the intricacies of eVTOL aircraft. This collaboration will help set the standard for eVTOL pilot training worldwide."

Peter Hemmert, Managing Director at EFT stated: "Euro Flight Test, known for its innovative test pilot and flight test engineer education, brings a wealth of experience to this collaboration. "Our partnership with Volocopter marks a significant milestone in the aviation industry. Together, we will provide pilots with the knowledge and skills they need to safely and effectively operate eVTOL aircraft, paving the way for the future of urban air mobility."

Euro Flight Test offers professional flight training through a combination of experienced training instructors and a wide range of test aircraft in all classes, making them the perfect partner for this initiative.
