BOMBARDIER'S CHALLENGER 650 RECEIVES CANADA CERTIFICATION

News / Manufacturer

Bombardier Business Aircraft is pleased to announce that it was awarded Transport **Canada (TC) Certification** for its Challenger 650 aircraft. With customer deliveries expected to commence in 2015, the Bombardier **Challenger 650** demonstration aircraft will make its North American debut at the National Business Aviation Association conference and exhibition.

"This latest milestone is terrific news and starts a new chapter in our Challenger family story," said Paul Sislian, Chief Operating Officer, Bombardier Business Aircraft. "With the widest-in-class cabin, breakthrough design attributes and unique expressions of comfort, control, and connectivity, the Challenger 650 aircraft has a strong future and we are confident that it will earn the appreciation of executives, pilots and operators around the world," he added.

Challenger 650 aircraft: A true intercontinental aircraft with a range of 4,000 nm (7,408 km) that can connect New York to Paris*. The Challenger 650 jet builds on the solid reputation of the Challenger 605 aircraft and will feature the newly-evolved GE engines, offering shorter take-off distance, extra payload capacity or improved range capabilities out of challenging airports. The Challenger 650 jet will also feature the Bombardier Vision flight deck, a completely restyled cabin, modern-looking and ergonomic seats, a redesigned galley, business aviation's most advanced and
