EMBRAER PHENOM 300 IS THE WORLD'S MOST DELIVERED BUSINESS JET FOR FOURTH YEAR IN A ROW

News / Business aviation, Manufacturer

Embraer Executive Jets delivered 63 Phenom 300 light jets in 2016, the highest volume of any business jet model for the year, according to a report made by the General Aviation Manufacturers Association (GAMA). This is the fourth consecutive year that the Phenom 300 achieves this mark, and it has accumulated 266 deliveries since 2013.

"We are elated to once again see the Phenom 300 receive such an important recognition from the market. We are very grateful to our customers for the validation of both the aircraft's original design as well as all their input, which has made this jet the best in its class," said Paulo Cesar Silva, Embraer CEO. "Our customers' reaffirmation of trust in us only strengthens our resolve to deliver the best customer experience."

In just seven years of operation, the Phenom 300 fleet is approaching the 400 aircraft mark, having sustained more than half of the light jet market share since 2012. The aircraft is in operation in 30 countries and has accumulated close to 500,000 flight hours. Embraer is continuously investing in its competitiveness with enhancements to its comfort, technology and operational efficiency.
