HARTZELL PROPELLER DOUBLES DOWN ON BACKCOUNTRY FLYING WITH DISCOUNT FOR RAF MEMBERS IN 2026

News / Manufacturer

Hartzell Propeller is bringing back its popular $1,000 discount on backcountry propellers for Recreational Aviation Foundation members, and it's here to stay through 2026. Now in its sixth year, the offer includes a generous $250 donation to the RAF for each backcountry propeller sold, fueling the foundation's mission to preserve backcountry airstrips for future generations.

JJ Frigge, President Hartzell Propeller commented: "We are so very proud to continue our support for the RAF and backcountry flying. This relationship isn't just about saving money, it's also about keeping backcountry flying alive for everyone who loves aviation adventures."

RAF Chairman John McKenna Jr. echoed the sentiment: "Hartzell Propeller's ongoing commitment directly benefits pilots and helps protect the airstrips that make backcountry flying possible. This is a win for the entire aviation community."

Discounted Propellers for Each Adventure

The discount covers Hartzell's high-performance propellers, including:

- **Carbon Voyager:** An all-new three-blade carbon fiber prop for Cessna 180, 182, 185, and 206 aircraft, available under an STC for Continental 470, 520, and 550 engines.
- **Voyager:** A rugged three-blade aluminum Scimitar prop for Cessna 180, 182, 185, and 206 aircraft, available under an STC for Continental 470, 520, and 550 engines.
- **Pathfinder:** A light three-blade Raptor carbon fiber prop, perfect for CubCrafters XCub, Carbon Cub FX, and other backcountry aircraft.
- **Trailblazer:** A versatile two- or three-blade carbon fiber prop, compatible with a range of aircraft, including models from American Champion, Maule, and CubCrafters.

These props are built to handle short takeoffs, power through climbs and short landings in rugged environments.
