Incorporating new engines and the latest technologies, the A320neo Family will bring a step-change reduction in fuel consumption of over 15 per cent from day one and 20 per cent by 2020, longer range capability and reduced maintenance costs, as well significantly reduced carbon emissions. Since its launch in 2010 the A320neo Family has won 60 per cent of all new orders for single aisle aircraft with over 100 seats and has been selected by over 75 airlines worldwide.
