KAMAN DELIVERS NEW K-MAX TO BLACK TUSK HELICOPTER

News / Manufacturer

Kaman delivered a new medium-to-heavy lift K?MAX helicopter to Black Tusk Helicopter of Squamish, BC, Canada. Black Tusk performs various external lift projects of every scale, ranging from aerial timber harvesting, ski tower setting, firefighting, and hydroelectric projects.

Phil Murphy, Vice President of Business Development, Kaman Air Vehicles, commented: “Black Tusk is a highly respected operator, and we appreciate the confidence Black Tusk has placed in Kaman and the capabilities of the K-MAX. Operators are choosing K-MAX for its proven repetitive lift capability with unmatched performance in the most demanding environments.”

Black Tusk Helicopter stated: “Our primary business goal is to offer our clients quality helicopter services and to ensure the longevity of our company through repeat and referral business by continuing to provide customers reliable and safe performance in all areas of our business. Adding a second K-MAX to our fleet is an important step towards ensuring we can continue offering our customers the most appropriate and efficient aircraft for their requirements and particular job needs.”

The K-MAX is a rugged, low-maintenance aircraft that features a counter-rotating rotor system and is optimized for repetitive external load operations. The aircraft can lift up to 6,000 pounds (2,722 kg) with unmatched performance in hot and high conditions.
