# NEW DIMENSION WITH CESSNA CITATION LONGITUDE

**News / Business aviation, Manufacturer**

**After the recent FAA certification of New Cessna flagship, Cessna Citation Longitude, the first deliveries of super-midsize business jet are announced, starting a new dimension in business travel.**

**“The newly certified Citation Longitude brings unrivaled technology to the business travel market, for both the passenger and the pilot, offering our customers the most efficient and productive super-midsize jet now in operation,” said Ron Draper, president and CEO. “We are thrilled to now transition this program into service.”**

**The Longitude features the longest maintenance intervals in its class – 800 hours or 18 months – and is the most cost-effective aircraft in its category.**

“The Longitude was designed around maximizing reliability and operational availability for our customers,” said Kriya Shortt, senior vice president, Global Customer Support. “The Longitude’s industry-leading on-board diagnostics system is backed by Textron Aviation’s team of 3,000 customer service employees. Our expert technicians trained alongside the development of the

program and are ready to support our customers wherever they are in the world.”

The clean-sheet design of the Longitude integrates the latest technology throughout the aircraft, including the next evolution of the Garmin G5000 flight deck. The comfortable, bespoke interior of the Longitude has class-leading legroom, cabin sound levels that are nearly twice as quiet as the nearest competitor, a low cabin altitude of 5,950 feet and more standard features than all other competitors in this segment.

*Things to remind about Cessna Citation Longitude*

*The range of 3,500 nautical miles (6,482 kilometers) and full fuel payload of 1,600 pounds (726 kilograms).Citation Longitude delivers the quietest cabin, a low cabin altitude (5,950 feet/1,814 meters). The seating up to 12 passengers, including an optional crew jump seat. A standard double-club configuration delivers the most legroom in the super-midsize class. The clean-sheet design of the Longitude integrates the latest technology throughout the aircraft, bringing customers the lowest ownership cost in its class. It features the next evolution of the Garmin G5000 flight deck and is powered by FADEC-equipped Honeywell HTF7700L turbofan engines with fully integrated autothrottles with envelope protection. The spacious cockpit incorporates easier access and an ergonomic design that fully focuses on crew comfort and efficiency. No super-midsize business jet offers more range, greater payload or higher cruise speed at a lower expected total ownership cost.*
