PRODUCTION ORGANIZATION APPROVAL GRANTED TO KOPTER GROUP

News / Business aviation, Manufacturer

Kopter Group received today from FOCA the certificate granting the Production Organization Approval.This certificate confirms Kopter as a duly recognized Production Organization. It is attesting that Kopter has in place qualified personnel, the necessary methods, processes and procedures, as well as a reliable quality system. It is a major milestone for Kopter making it eligible to produce and ramp up its light single-engine SH09 helicopter.

The handover ceremony of the certificate took place today at the Kopter premises in Mollis with the participation of the Chief Operations Officer of Kopter, Dr. Jan Nowacki, the FOCA POA Team Leader for Kopter, Urs Frei, and Andreas Boss, national FOCA POA coordinator.

Jan Nowacki said, “We are extremely satisfied to receive this certificate, which acknowledges all the work we’ve done in building a well performing team and organization. We thank FOCA for their trust and strong support in reaching this key step and look forward to pursuing our close cooperation on our way to produce our new turbine engine helicopter.”

Andreas Boss and Urs Frei commented: “We are proud to handover this POA certificate to Kopter. It demonstrates that Kopter fulfills the highest aviation standards and possesses the capability, facilities, manpower, resources and quality assurance systems to produce and support the SH09 helicopter which is on its way to certification.”
