SAVE THE DATE TO CELEBRATE GLOBAL 6500 ENTRY-INTO-SERVICE!

News / Business aviation, Events / Festivals, Manufacturer

This month became especially rich on events for Bombardier Global jets family: the Transport Canada certification of both the *Global 5500* and *Global 6500* and now the entry-into-service of the *Global 6500* .

Attention - the aircraft will make its public debut at the National Business Aviation Convention & Exhibition (NBAA-BACE) in Las Vegas on October 22.

“We are celebrating a significant milestone today with the entry-into-service of this exceptional aircraft,” said David Coleal, President, Bombardier Aviation. “We’re proud of the work our team and our suppliers have done to deliver a technologically advanced aircraft that exceeds our customers’ expectations in terms of unparalleled comfort, superior performance and an incomparable smooth ride. The *Global 6500* business jet continues to maintain the longstanding winning DNA of our *Global*family of aircraft, the most successful long-range business jet platform.”

The aircraft went through the rigorous flight testing program, which was completed at Bombardier's world-class test centre in Wichita, Kansas. The Pearl 15 engine, the latest addition to Rolls-Royce's exceptional business aviation engine portfolio, received EASA certification in 2018 and Transport Canada certification recently. The engine, developed at the Rolls-Royce Centre of Excellence for Business Aviation engines in Dahlewitz, Germany, was custom-designed with the most innovative technology – including enhanced aerodynamics, blade cooling and advanced engine health monitoring systems – to power the *Global 5500* and *Global 6500* aircraft.

With the purpose-built engines, advanced wing design and built-in systems redundancy and robustness for which Bombardier *Global* aircraft are renowned, the aircraft offer superior safety and a smooth ride to its passengers. The new Rolls-Royce Pearl engines also make the *Global 6500* aircraft a cleaner and more efficient business jet.

Equipped with the revolutionary Bombardier *Vision Flight Deck* and the industry's leading cockpit, the aircraft offers a comprehensive avionics suite with ergonomics and aesthetics that provide pilots with outstanding comfort and control.

The *Global 6500* aircraft has a class-leading range of 6,600 nautical miles, with a top speed of Mach 0.90 and Bombardier's smooth ride technology. It can connect New York to Dubai, and Hong Kong to London. The *Global 6500* aircraft also boasts superior agility, with the ability to access airports that others can't, such as London City.

The *Global 6500* aircraft offers a stunning redesigned cabin with exclusive features that are as innovative as they are luxurious. The *Global 6500* business jet also debuts the *Nuage* chaise, a unique seating innovation, which adds new dimensions to the conference suite as a lounge chair that converts into a flat surface for sleeping or banquet-style dining around the table. Bombardier's patented *Nuage* seat is also exclusive to the new *Global* aircraft family. With its distinctive
