SIKORSKY DELIVERS S-92 HELICOPTER TO KOREA COAST GUARD

News / Manufacturer

The Korea Coast Guard accepted the delivery on Sept. 30 of its third S-92® search and rescue helicopter built by Sikorsky. The expansion of Korea Coast Guard's S-92 fleet increases its capability to conduct maritime security, safety and life-saving missions for the people of Korea.

Mr. Han Sangchul, Senior Superintendent and Final Acceptance Test Inspection Team Lead for the Korea Coast Guard, commented: "Our valued partnership with Sikorsky spans for nearly a decade. We look forward to continued success as we grow our fleet of highly-capable search and rescue S-92 aircraft."

The Korea Coast Guard has completed 195 rescues and has flown more than 2,700 flight hours since 2014. The global fleet of S-92 helicopters recently achieved 2 million flight hours in a variety of missions including search and rescue, oil and gas transportation and VIP transportation in 28 countries.

Leon Silva, vice president of Sikorsky Global Commercial and Military Systems, said: "The S-92 gives the Korea Coast Guard a strategic advantage when it comes to saving lives. Every second counts, which is why the agile, all-weather S-92 is mission ready, all the time."
