system is protected by ground and air to prevent terrorism, pollution and crime.

The **AW119Kx** selected by the **Department of Environmental Protection** is fully customized and features searchlight, **FLIR**, external loudspeakers, rappelling and cargo hooks, expanded fuel system, a foldable stretcher, and high visibility crew doors on both sides of the aircraft. The aircraft also includes provisions for a Bambi Bucket to be used for firefighting operations.

This order expands the presence of the **AW119Kx** in law enforcement and public utility missions around the world, allowing operators to take advantage of a reconfigurable cabin that meets the most demanding requirements.
